1. Lay any credit card on the box above. If its edges match the box exactly, the sheet printed at true size and you can proceed with finding your size. If not, print again, and be sure the printer settings are set to 100% / "Actual size" with "Fit to page" turned off.
2. Cut out the five circles on their lines (a craft knife or small scissors — cut on the line, not outside it).
3. Place your marble on the smallest hole to start, and slowly lift the paper from the sides, with a bit of tension. If the paper picks up your marble, move on to the next hole. The first hole it passes through is your answer.
4. If it catches before going through, go one size up.

Size 1 fits 19-23 mm | Size 2 fits 23-26 mm | Size 3 fits 26-29 mm | Size 4 fits 29-32 mm | measured across the widest point
